

## **A Tribute to Professor Leonard R. Herrmann**

Karl S. Pister, Dean and Roy W. Carlson Professor of Engineering, Emeritus, University of California, Berkeley

Robert L. Taylor, Professor of the Graduate School, Department of Civil and Environmental Engineering, University of California, Berkeley

This keynote presentation will pay tribute to Professor Leonard Herrmann. As a former mentor and research collaborator, the first author will share his insight on the personal attributes of Len Herrmann as a student, a researcher, and an individual. The second author will focus more on the importance of Professor Herrmann's contributions in the field of solid and structural mechanics and his development of finite element theories.
